

History of the “Progressive Movement”-Part 2

A Review of the background information that leads to what is referred to as today’s “Progressive Movement” (~150 yrs. old):

- “**Progressive**” is an “umbrella term” that includes many individual groups that share some or most of the same **globalist beliefs** or goals
- They focus on their main views of “**what is best**” for the future world based on **limited resources** and an excessive world population
- Their dominant individual shared common belief is the requirement for “**One controlling world government**” (NWO)
- **Their leaders' hubris believes that “*They are the ones that should be in control!*”**

Part 2 will cover events from ~1960- ~2010

Review: Our Human Nature History Impacts the “Progressive Movement”

Our Human Nature has built in biases that have always shaped societies:

- **Tribalism- association with those who have common beliefs/values:
“racism” for outsiders**
- **Powerful drivers: Fear and Greed (envy is a catalyst)**
- **Narcissism, hubris evolves in leaders**
- **“Leader of the pack” syndrome, nepotism, "I am the smartest!"**
- **See the “Slippery Slope” chart: a history of societies and our human nature**
- **Why do the new billionaires become “globalists”? See all the above**

***"For in order to turn the individual into a function of the State, his dependence on anything beside the State must be taken from him."* - Carl Jung**

Review: Progressive/Globalist Objectives

These have been some of the common objectives of the various Progressive groups:

Progressives' goals are promoted to centralize their "global control":

- **Global Depopulation: Population reduction (limit children):** eugenics, abortion, same sex relationships, eliminate sexual definitions
- **Follow Marxist control principles, a Two Class Society:** 1) Ruling elites, and 2) the masses
- **People must turn to government FIRST, not the "traditional family"** (dismantle it!)
- **Eliminate any religion not under government control.** Targeting the Vatican (Catholic Church), **Must De-Christianize the West** ...Eliminate the 1st Amendment in the US
- **Propaganda/Indoctrination strategies:** centralize education, reduce family influence, "woke-ism", identity/division politics ("divide and conquer"), cancel culture
- **Redefine/STOP 'growth' to destroy/dismantle nationalism and capitalism,** Economic growth encourages higher populations: Eliminate fossil fuels- destroy economies, **Open Borders, UBI,** and individual governments for establishing the NWO (New World Order)...**"The Great Reset" is coming!**
- **All "super powers" must be eliminated** to establish the **NWO**...USSR first,now the US
- **Use the UN to drive the global "progressive changes "**

Review: Recognizing Brain Basics of Our Human Nature and its History

Throughout history, man has struggled with advancement and our human nature. Whether its emotions or rational thinking, ***“Our human nature hasn’t changed for thousands of years, nor will it change!”***

- Rise and fall of societies have followed the same patterns...
- This includes tribal units, empires, kingdoms, dictatorships, or “pure democracies”
- Tribal unit “conflicts” are inherent in our nature: tribe vs. tribe, kingdom vs. kingdom, country vs. country, rich vs. poor, two class societies....
- Even today in sports: “tribalism” emotions, its team vs. team conflicts!
- Many of these conflicts are often referred to as “racism” today
- Basic human drivers are ***greed vs. fear***, and the brain responses are always the same....key progressive psychological tactics!
- **Fear** has always been the key tactic to control a society!

Review: Recognizing Brain Basics of Our Human Nature and History

Often, we may start with good intentions, but our basic **Human Nature** prevails

- Anytime there is “a concentration of power, the temptation is for greater control”
- Our greed takes over.... and hubris results
- *“We think we are smarter than anyone else, therefor we know what’s best for them!”*
- **Definition of Greed:** A selfish desire for more of something (such as money, fame, recognition, etc.) than is needed

The “**Progressive Movement**” is just another classic example of this!

“Power corrupts, absolute power corrupts absolutely”- Lord Acton, 1887

Review: Historic View of Evolution to Two Class Societies

“Ruler’s Law (Total Power) - Authoritarian”

- Dictatorship-Tyranny
 - Royalty
 - New World Order (NWO)
 - Communism
 - Fascism
 - “Industrial Policy” (Early Fascism)
 - Socialism

TWO CLASS SOCIETIES

US Constitution Prevents the Creeping Evolution

- Liberty (People’s Law) –Healthy middle class with individual mobility (up and down), the US Constitution is followed

‘Creeping’ Evolution to a Two Class Society

- No law -Anarchy

The Founding Fathers set up a republic with a Constitution to guard against creeping tyranny. It was designed to protect future generations from our human weaknesses.

Historic Theme: Using “Good Intentions” vs. Our Human Nature

Summary of 3 Parts "*History of Progressive Movement Presentations*" Key Points:

- The official journey starts in the mid 1870s with “**Darwinism**”
- The main goal is to deal with **diminishing resources** (food supply) and **over population** to “**Save the Earth**”...
 - **Develop a New World Order (NWO)**
 - **Global power/control is established by the “globalist elites”**
- **Part-1:** The **1st major strategy focus was on “eugenics”**. After WWII atrocities and in the 1950s, this strategy started losing favor....
- **Part-2:** The **2nd major strategy was developed in the late 1960s to focus on the “climate” to instill fear and get submission by the general population**
- **Part-3:** After ~2010, “**The Great Reset**” is the latest strategy focusing/using a **Pandemic** in addition to the “**Climate Change Strategy**” for fear...**Note:** The term “**Man-made Climate Change**” is now rarely used!

Historic Theme: “Progressive Movement” is Divided into 3 Phases

The 3 sequences of the evolution reviewed again:

- Many key pre-1860 events (“seeds”) lead to the Progressive Movement
- **Darwinism formation Phase** (~1859-1890), then...
- **Phase 1 (~1890 to mid-1950s)** of the Progressive Movement
 - Groups come together to consolidate goals
 - Their Key Strategy was built on **“Eugenics”**
 - **Post WWII Strategy Disruption in mid-1950s- 1970** caused a need for regrouping
 - **“Eugenics”** loses favor....the 1960s was a decade of chaos!
 - Various issues debated and themes/tactics are considered to do the “Rebranding”
- **Phase 2 (~1960-2010)... “Rebranding Strategies” Start**
 - Various groups (under the lead of WEF) consolidated under the “Progressive Umbrella”
 - Main strategy of **“Man Driven Global Climate”** is finally chosen
 - Various social issues are added to goals as support the strategies
- **Phase 3 (~2010-Today) “The Great Reset”**: a **Pandemic Strategy** is added to "Climate Change" for increased "fear"/control

History of the Progressive Movement –Part 2 Starts Now...

After WWII atrocities were seen, "eugenics" suffered a public image issue. The Progressives still supported it privately, but now needed to rebrand their strategies to continuing to advance their world control.

By the late 1950s, “eugenics” lost much of its appeal. New strategies were reviewed by progressives for the influencing governments and societies for their planned population control.... **PART-2 Starts below: In the US...**

- **LBJ (1963-1969) presidency and he was also the 3rd progressive president**
- **LBJ viewed JFK's death as an opportunity to push his own agenda**
 - LBJ said, "*I am a Roosevelt New Dealer!*" a day after JFK's 11/23/63 assassination, also "*Kennedy was a little too conservative for my tastes!*"
- **LBJ's Progressive social/cultural agenda is initiated to advance concentration of government control and increase dependency.**
- **LBJ's "Great Society" policy initiatives were modeled after FDR's "New Deal"**

"There's nothing that the government gives "for free" that you don't pay for one way or another..."- anonymous

History of the Progressive Movement –Part 2 " LBJ Related Events"

Pre1960s, The US "core society structure" was based on:

Religion – Family -- Country

Then came...Several of the Great Society welfare state initiatives:

- Various "War on Poverty" programs
- Medicare launched in 1965
- Medicaid launched in 1967

"Good Intentions" vs. Increased Dependency... Results:

- Medicare spending forecasted spending by House Ways and Means Comm. would be \$12B in 1966. Then 1990...actual would be \$110B, and then was \$875B in 2021
- Medicaid 1967 spending was \$3B for ~4% of the population. In 2021 spending was \$696B for ~26% of the population. The 2022 estimate is for ~87million persons on Medicaid/CHIPS programs

"Good Intentions" vs. Increased Dependency... Results:

- **Poverty rates are little changed from 1964 through today, as the poverty rates have oscillated between 12-15%**
 - **Health outcomes became worse!**
 - In 1964, obesity was ~13% in adults and ~5% in children
 - In 1999, obesity was ~30.5% in adults, then in 2021 adults were at 42% and children were at ~15%...
- CDC estimated 2018 healthcare costs related to obesity was \$170B. A 2020 study published in *Obesity Review* stated obesity was related to:
- 113% more likely hospitalized than healthy weight
 - 74% more likely admitted to ICU
 - 48% more likely to die

Progressive goal of greater central government control is accomplished!

History of the Progressive Movement –Part 2 "Beyond LBJ- Related Events"

Progressives see using "finance" as a key control tool:

- **Debt had always been viewed as a negative!** For the 1st 180 years in the US, every generation was committed to paying down any new debt so not to burden future generations....
- **What changed?...Our "Debt Culture" Starts in the 1970s! Key events:**
 - **In Flemming v. Nestor (1960)** Supreme Court ruling was interpreted "*that no one has an accrued property right to benefits from Social Security.*" Contributions are now taxes with an indirect correlation to benefits.
 - **In 1967 to pay for Great Society programs and the Vietnam War, LBJ Transfers SS Trust Funds into General Revenue** and replaces with non-negotiable bonds (they can't be sold!).
 - **Saving and spending- Progressives discourage personal savings since it reduces future dependency on the central government.** Massive debt will destroy local governments and personal independence creating the need for the NWO

History of the Progressive Movement –Part 2 "Beyond LBJ Related Events"

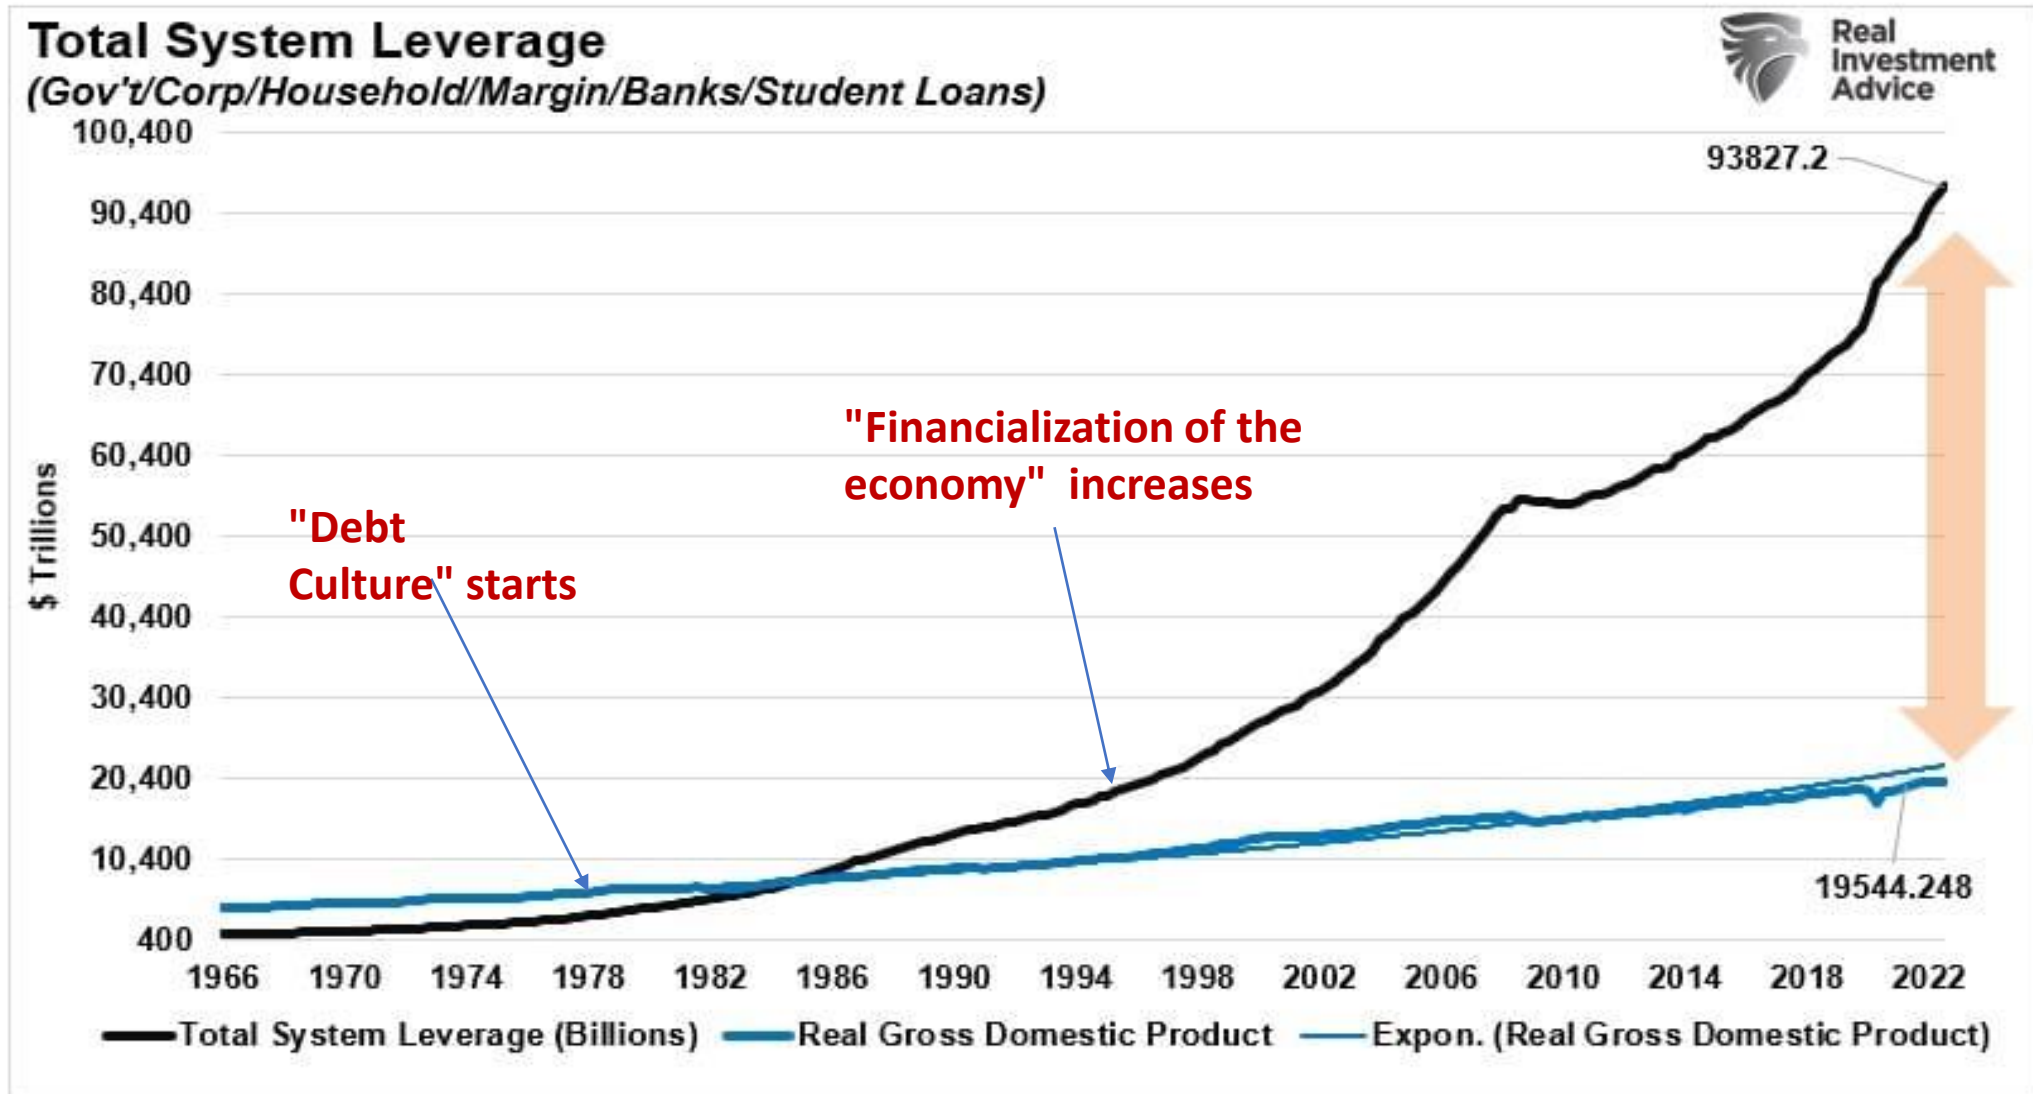

- ***United States v. Richardson, (1974)***, was a [Supreme Court](#) case concerning a [standing](#) in which the Court held (5 to 4) a taxpayer's interest in government spending was generalized, and too "undifferentiated" to confer Article III standing to challenge a law which exempted [Central Intelligence Agency](#) funding from Article I, Section 9 requirements. **Basically, this interpretation has allowed Congress to make up their own "accounting rules"!....New Congressional Strategy: Using debt to "pull growth forward"!**

This then led to our "Debt Culture" and then the "Financialization of the Economy".

- Congress the can use "accounting tricks" to pass legislation. The CBO is required to follow Congress' assumptions and NOT USE public standard accounting rules
- **More Corruption:** Politicians now use legislation to "buy votes" and become personally wealthy off the special interests! NOTE: Federal Tax Code 1984 was 26,300 pages...in 2014 it was 74,000 pages!

"Government complexity is the mother's milk of political corruption." - Ron Kaminski

Since the 1970s, debt is now used to increase "reported" GDP : The financial elites are prospering; The Progressives see the excessive debt will eventually bring down the US capitalist system!

History Progressive Movement, Part 2- Global Events

Progressive “Umbrella” Organizations: During the 1950s-60s, progressives had focused on using the UN to promote their goals...

- **1968- Book "*The Population Bomb*"** by Paul Ehrlich predicted worldwide famines in the next decade due to overpopulation...this built on fears from the 1960s
- **1968- Club of Rome**, a semi-secret organization, is commissioned by the "Committee of 300" to influence foreign policy. Decreed "*There shall be a much smaller and better world*" and "*One World government*". Some initial objectives:
 - Bring down Italy since they have too much influence in the Middle East
 - Stop Catholics who oppose communism
 - Need to infiltrate NATO for control
 - Stop growth which encourages higher global population
 - Stop nuclear power because it's too cheap/abundant that encourages growth
- **1969-The UN Population Fund (UNFPA)** started operations to assume a leading role within the UN system in promoting **population programs**, based on the human right of individuals and couples to support the **NWO** objectives
- **1972- "*The Limits of Growth*"** report on the limited earth resources and overpopulation (computer simulations) was commissioned by the Club of Rome.

History Progressive Movement -Club of Rome, Background Details

Some of the key international oligarchy/organizations involved in the **Club of Rome** (an elite think tank):

- Rockefeller Foundation
- Morgenthau Group
- Agnelli Foundation (Venetian nobility)
- Nobel Foundation (Swedish nobility)
- Royal Dutch Shell
- Nestle's Corporation (Swiss and old Austria-Hungarian nobility)
- Numerous banking leaders

The Club of Rome's key roll/tactics are for controlling/influencing international organizations such as the UN, IMF, and the World Bank

History Progressive Movement -Club of Rome, Background Details

Alexander King, one of the cofounders of the semi-secret **Club of Rome**, was interviewed:

- *"The Club of Rome was originated in a feeling that growth for the sake of growth wasn't good enough."*
- King stated that he was *"interested in promoting zero growth through a rubric of the techetronic society."*
- King admits the consequences of his technocratic dream, *"That not only a reduction of the world's population, but a reduction in such a way that the 'white races' are preserved."*

See "The Inside Story of the Club of Rome" by Nancy Spannaus, June 23, 1981

Some noted members have been Maurice Strong, George Soros, Mikhail Gorbachev, David Rockefeller, Al Gore, UN bureaucrats...

History Progressive Movement, Part 2- Global Events

- **1971- World Economic Forum (WEF)** is established in Geneva, Switzerland (annual Davos meetings) by Klaus Schwab. It will provide networks for governments, politicians business leaders, and private donors for the progressive/globalist elites to increase control. **Eventually it will become the leading "umbrella" organization for Progressives**
- **1972- "*The Limits to Growth*"** crisis report was sponsored by the **Club of Rome** to warn of limited earth resources and earth's over population.
 - **Promotes greatly reducing the world population**
 - **Criticizes the world's improving standard of living as a threat to mankind!**
 - **Economic growth is a danger to the earth!**

History Progressive Movement, Part 2- Global Events

- **1973- Trilateral Commission** is established to promote a global agenda, similar to the World Economic Forum, for managing global issues.
 - David Rockefeller was founder/Chairman of the Executive Committee
 - Zbigniew Brzezinski a founding member wrote the 1969 book, "*Between Two Ages; America's Role in the Technotronic Era*".
 - **Brzezinski laid out what was the necessity for international collaboration over the sovereignty of the nation states...a NWO**
 - Focused on the US, NATO and Japan with shared headquarters in Washington DC, Paris and Tokyo.... with rotating annual meetings

History Progressive Movement, Part 2- US Events

- **1976- Jimmy Carter elected president**

Jimmy Carter was another founding Trilateral Commission member, then his Progressive agenda:

- **In 1977** when Carter became President, he **appointed Brzezinski as the National Security Advisor. Brzezinski, NC Advisor**, promptly relinquished his TC membership. In the 1980's he returned to the TC Commission to resume his duties on the Executive Committee.
- **Carter also filled his administration with eighteen members of the Trilateral Commission!**
- **In 1977** the **Economic Stimulus Appropriations Act** was passed to reduce unemployment. It was a contributing factor to growing "stagflation".
- **In 1978** the **Humphrey-Hawkins Act** is passed by Congress for managing unemployment and inflation...essentially leading to central planning of the economy. Our "Debt Culture" will soon be used to help control the masses.
- **In 1979**, a separate **US Dept. Of Education** was established which started the increased central control of education: 1980 DOE Budget was \$14B, the 2023 Budget proposed is \$88B.

History Progressive Movement, Part 2- New Strategy is Evolving

During the 1970s, a New Progressive Strategy is Evolving to Replace Eugenics...

The Club of Rome builds on "*The Population Bomb*" and "*The Limits to Growth*" efforts.

- 1972- The first UN Environmental Conference meets in Stockholm. "Global warming" was not on the agenda that included chemical pollution, atomic bomb testing, and whaling.
- Global temperatures continue declining into the 1970s
- **1970s-The scientific community debates the looming "Global Cooling" catastrophe ...and the coming man-made "Ice Age".**

***"Give me just one generation of youth, and I'll transform the whole world."* — Vladimir Lenin**

History Progressive Movement, Part 2- New Strategy is Evolving

- The UN Sustainable Development Agenda emerged in the 1970s when the **United Nations tried to define it at a conference in Vancouver, Canada, 1976 meeting "Vancouver Declaration" report excerpts:**
 - "Land cannot be treated as an ordinary asset controlled by individuals and subject to the pressures and inefficiencies of the market".
 - "**Private land ownership** is also a principal instrument of accumulation and concentration of wealth, **therefore contributes to social injustice.**"
 - "The nations must avoid the pollution of the biosphere and the oceans and should join in the effort to end irrational exploitation of all environmental resources"
- **Their evolving man-caused "Global Cooling" strategy is now used to promote "fear" during the 1970s**

During the 1970s the media promoted global cooling alarmism with dire threats of a new ice age. **Extreme weather events were hyped as signs of the coming apocalypse and man-made pollution was blamed as the cause.**

Environmental extremists called for everything from outlawing the internal combustion engine to communist style population controls.

Scientists and computers at the National Oceanic and Atmospheric Administration were confidently predicting that the frigid weather would continue. The chilling pronouncement of NOAA's senior climatologist: 'The forecast is for no change.' "

- Time Magazine, 1977

Examples: Media hype found in major newspapers, magazines, books and television:1970-2

- **1970** - Colder Winters Held Dawn of New Ice Age - Scientists See Ice Age In the Future (The Washington Post, January 11, 1970)
- 1970 - Is Mankind Manufacturing a New Ice Age for Itself? (L.A. Times, January 15, 1970)
- 1970 - New Ice Age May Descend On Man (Sumter Daily Item, January 26, 1970)
- 1970 - Pollution Prospect A Chilling One (The Argus-Press, January 26, 1970)
- 1970 - Pollution's 2-way 'Freeze' On Society (Middlesboro Daily News, January 28, 1970)
- 1970 - Cold Facts About Pollution (The Southeast Missourian, January 29, 1970)
- 1970 - Pollution Could Cause Ice Age, Agency Reports (St. Petersburg Times, March 4, 1970)
- 1970 - Scientist predicts a new ice age by 21st century (The Boston Globe, April 16, 1970)
- 1970 - Pollution Called Ice Age Threat (St. Petersburg Times, June 26, 1970)
- 1970 - U.S. and Soviet Press Studies of a Colder Arctic (The New York Times, July 18, 1970)
- 1970 - Dirt Will Bring New Ice Age (The Sydney Morning Herald, October 19, 1970)
- **1971** - Ice Age Refugee Dies Underground (Montreal Gazette, February 17, 1971)
- 1971 - Pollution Might Lead To Another Ice Age (The Schenectady Gazette, March 22, 1971)
- 1971 - Pollution May Bring Ice Age - Scientist Rites Risk (The Windsor Star, March 23, 1971)
- 1971 - U.S. Scientist Sees New Ice Age Coming (The Washington Post, July 9, 1971)
- 1971 - Ice Age Around the Corner (Chicago Tribune, July 10, 1971)
- 1971 - Danger: Ice age may lurk in dusty skies (The Christian Science Monitor, July 12, 1971)
- 1971 - New Ice Age Coming - It's Already Getting Colder (L.A. Times, October 24, 1971)
- 1971 - Another Ice Age? Pollution Blocking Sunlight (The Day, November 1, 1971)
- 1971 - Air Pollution Could Bring An Ice Age (Harlan Daily Enterprise, November 4, 1971) 1972 - Air pollution may cause ice age (Free-Lance Star, February 3, 1972)
- **1972** - Scientist Says New ice Age Coming (The Ledger, February 13, 1972)

Some Examples: More media hype... skipping on to 1978-9:

- **1978** - Ice! [Book] (Arnold Federbush, 1978)
- 1978 - The New Ice Age [Book] (Henry Gilfond, 1978)
- 1978 - Winter May Be Colder Than In Last Ice Age (Deseret News, January 2, 1978)
- 1978 - Current Winters Seen Colder Than In Ice Age (The Telegraph, January 3, 1978)
- 1978 - Winter Temperatures Colder Than Last Ice Age (Eugene Register-Guard, Eugene Register-Guard, January 3, 1978)
- 1978 - International Team of Specialists Finds No End in Sight to 30-Year Cooling Trend in Northern Hemisphere (The New York Times, January 5, 1978)
- 1978 - Little Ice Age: Severe winters and cool summers ahead (Calgary Herald, January 10, 1978)
- 1978 - Winters Will Get Colder, 'we're Entering Little Ice Age' (Daily Record, January 10, 1978)
- 1978 - Geologist Says Winters Getting Colder (Middlesboro Daily News, January 16, 1978)
- 1978 - It's Going To Get Colder (Boca Raton News, January 17, 1978)
- 1978 - Another Ice Age? (Kentucky New Era, February 12, 1978) 1978 - Another Ice Age? (Reading Eagle, February 13, 1978)
- 1978 - The Coming Ice Age (In Search Of TV Show, Season 2, Episode 23, Host: Leonard Nimoy, May 1978)
- 1978 - An Ice Age Is Coming Weather Expert Fears (Milwaukee Sentinel, November 17, 1978)
- **1979** - A Choice of Catastrophes - The Disasters That Threaten Our World [Book] (Isaac Asimov, 1979)
- 1979 - The Sixth Winter [Book] (John R. Gribbin, 1979) 1979 - The New Ice Age Cometh (The Age, January 16, 1979)
- 1979 - Ice Age Building Up (Daily Record, June 5, 1979) 1979 - Large Glacial Buildup Could Mean Ice Age (Daily Chronicle, June 5, 1979)
- 1979 - Ice Age On Its Way (Lewiston Morning Tribune, June 7, 1979) 1979 - Get Ready to Freeze (Daily Chronicle, October 12, 1979)
- 1979 - New ice age almost upon us? (The Christian Science Monitor, November 14, 1979)

History Progressive Movement, Part 2- New Fear Strategy is Evolving

Some famous quotes:

“Civilization will end within 15 or 30 years unless immediate action is taken against problems facing mankind.”

— *Harvard biologist George Wald (Earth Day 1970)*

“At the present rate of nitrogen buildup, it’s only a matter of time before light will be filtered out of the atmosphere and none of our land will be usable. ... By the year 2000, if present trends continue, we will be using up crude oil at such a rate ... that there won’t be any more crude oil. You’ll drive up to the pump and say, ‘Fill ‘er up, buddy,’ and he’ll say, ‘I am very sorry, there isn’t any. ... **The world has been chilling sharply for about twenty years. If present trends continue, the world will be about four degrees colder for the global mean temperature in 1990, but eleven degrees colder in the year 2000. This is about twice what it would take to put us into an ice age.”**

— *Kenneth Watt*

History Progressive Movement, Part 2- New Fear Strategy is Evolving

“Population will inevitably and completely outstrip whatever small increases in food supplies we make. **The death rate will increase until at least 100–200 million people per year will be starving to death during the next ten years.** ... Most of the people who are going to die in the greatest cataclysm in the history of man have already been born. ... [By 1975] some experts feel that food shortages will have escalated the present level of world hunger and starvation into famines of unbelievable proportions. Other experts, more optimistic, think the ultimate food-population collision will not occur until the decade of the 1980s.

— *Stanford University biologist Paul Ehrlich*

History Progressive Movement, Part 2- Their Newest Strategy Unravels...

Then, the newest Globalists' "Global Cooling Strategy" starts unraveling as the "global cooling" cycle starts to reverse.

By the early 1980s, the warming trend has become obvious and discussions/articles on global cooling start to disappear.

- **1986- Maurice Strong**, a Canadian, becomes Executive Director of the UN's World Commission on Environment and Development. Strong believed the UN should use centralized power to diminish sovereign states
- **1987- Montreal Protocol Agreement** is reached restricting ozone chemicals...still NO mention of Global Warming

History Progressive Movement, Part 2- Newest Strategy Evolves...

As climate temperatures had shifted in the late 1970s-1980s from cooling to warming, this was soon seen as a possible opportunity:

1990- Club of Rome meets to get an agreement from members on using some recent research theory ("**Global Warming**") as a vehicle for their "new system of control and governance". Use of fossil fuels are creating **excessive CO₂, a greenhouse gas**, which is destroying the earth!

Club of Rome, in their internal 1990 publication entitled ***The First Global Revolution***, they outlined how they would "manufacture" ecological scares. This was to manipulate the public into accepting the imposition of world government run by the elites.

Some of the attending members include Maurice Strong, George Soros, Mikhail Gorbachev, David Rockefeller, Al Gore, UN bureaucrats

History Progressive Movement, Part 2- The "Global Warming Strategy" is Completed

- **1990-** Then the UN's **IPCC** produces **First Assessment Report** concluding that humanity's emissions may have caused a 0.3-0.6 C temperature rise over the last century. More greenhouse gases will be a problem, **Stop using fossil fuels**. Eliminate low cost nuclear power since it will promote growth.
- **1992- UN Earth Summit Meeting** June 3-14 in Rio de Janeiro. **Maurice Strong** organizes this premeeting. He is Secretary General for the UN Conference on Environment and Development.
- **1992-** In early June, Al Gore (member of the Club of Rome) has a book ***The Earth in Balance*** published just before their meeting
- **1992- Maurice Strong** holds the **UN Conference on Sustainable Development** on June 20-22 in Rio de Janeiro

History Progressive Movement, Part 2- Newest Strategy Evolves...

On page 75 of the IPCC report: ***The Common Enemy of humanity is Man***

"In searching for a common enemy against whom we can unite, we came up with the idea that pollution, the threat of "global warming", water shortages, famine and the like would fit the bill....All these dangers are caused by human intervention....The real enemy, then, is humanity itself,"

Agenda 21 was a 1990 output of the Club of Rome and is given to the UN as a "suggestion".

Note: today we are seeing many of the Club of Rome "suggestions" as legislation in the US...this "transformation" is no accident and is being carefully constructed and orchestrated.

History Progressive Movement, Part 2- The "Global Warming Strategy" is Completed

The UN Conference's agreement:

- They agree on **United Framework Convention on Climate Change** to stabilize greenhouse gases...leads to Kyoto Protocol
- They make a Declaration on Environment and Development
- The **Club of Rome's Agenda 21** is also included as a result. **It will now be called "sustainable growth" or "smart growth" for PR purposes**

What is in the Approved Agenda 21?

Agenda 21 is a 300 page document (40 chapters) for central planning a "One World Government" and has these 4 sections:

- ***Social and Economic Dimensions***- Decisions making for a smaller sustainable population, consumption requirements, and settlements
- ***Conservation and Management of Resources***- Management includes atmospheric protection, deforestation, biodiversity, and biotechnology
- ***Strengthening Roles of Major Groups***- New roles are defined for children, women, local officials, communities, business and industry. And farming...(think "woke"!)
- ***Means of Implementation***- Manage the implementation of science, technology transfers, education system, financial system, all international institutions...(think total central control!)

History Progressive Movement, Part 2- The "Global Warming Strategy" Continues

- **1995-** The **Kyoto Protocol** has agreement. Developed nations are to reduce their CO2 emissions by 2008-12. The US Senate does not ratify.
- **1998-** UN promotes Prof. Michael Mann's infamous "hockey stick" graph on the coming massive pending temperature rises
- **2001-** **IPCC Third Assessment Report** finds evidence that man is responsible for increasing global warming. **Michael Mann's "hockey stick" graph is still broadly promoted!**

NOTE: Several years later, after Mann's data manipulation is revealed, the graph is removed from UN's IPCC records.

History Progressive Movement, Part 2- "Global Warming" is Reframed

From the late 1990s to the early 2000s, global temperatures stopped rising creating another messaging problem.

- All the computer models were failing and public skepticism was rising...
- Rather than questioning the "global warming" strategy or computer models being used, a reframing of the message was needed.
- **UN then replaced the term "Global Warming" with "Climate Change".**
- **People couldn't disagree with the term "climate Change" since the earth's climate has always changed...and always will!**
 - **Note: Progressives will always use the term "Climate Change" instead of "Man-made Climate Change"!**
- **Promoting Fear: *"The result has been that any unusual weather effect/event was then man's fault!"***

History Progressive Movement, Part 2-Promoting "Climate Change" Now

Also, The Original Eugenics Strategy Hasn't Been Abandoned...

The public image had suffered so the approach was changed:

Reframing Eugenics- New ways of using personal DNA data to promote eugenics...

- Combining social and natural sciences with the data bases of the new genome science (such as 23andMe) can separate out undesirable behaviors.
- The field is being led by progressive sociologists, economists, and psychologists.
- Objectives have covered “improving the future of the human race”.
- The WEF has been a leading proponent of digital biometric identity systems.

History Progressive Movement, Part 2 - Controlling Climate Change Costs

2008- In 2006 Lord Stern, London School of Economics , issued a report on tackling Climate Change to prevent further economic damage to the earth. It received strong support from the IPCC. **The report said countries needed to spend 1% of their GDP** to stop greenhouse gases rising to dangerous levels. Failure to do this would lead to damage costing much more.

Stern said evidence that **climate change was happening faster than had been previously thought meant that emissions needed to be reduced even more sharply.**

Then in 2008, Stern updated conclusion stating the concentration of greenhouse gases in the atmosphere would have to be kept below 500 parts per million. Stern. in 2006, he set a figure of 450-550ppm. "I now think the appropriate thing would be in the middle of that range," He said. **"To get below 500ppm ... would cost around 2% of GDP."**

World Economic Forum Assumes the Progressive Leadership Role

The Davos **World Economic Forum (WEF)** is now the premier forum for governments, global corporations and international entrepreneurs.

As the various progressive organizations promoted their strategies, they consolidated their support under the World Economic Forum "umbrella". Some of the organizations:

Trilateral Commission, the Atlantic Council, the European Council of Foreign Relations, Save the Children Fund (funded by the Gates Foundation and a partner of Gates' GAVI Vaccine Alliance), some British Parliament members, US government members, many Silicon Valley Tech leaders, financial institutions, wealthy elites, the Center for American Progress (another organization funded by dark money) and many more non-profit organizations.

World Economic Forum Develops the Progressive "Global Leaders for Tomorrow" Roles

The WEF has been running, since 1993, a program called **"Global Leaders for Tomorrow"**, rebranded, in 2004, as **Young Global Leaders**. It's a 5-year program of indoctrination into WEF's principles and goals.

This program aims at identifying, selecting and promoting future global leaders in both business and politics. Since 1992, about 1,400 selected candidates have completed the program.

2005 WEF Young Global Leaders Nomination Committee

Nomination Committee **consisted** primarily of major media publishers and editors, editors, including:

Arthur Sulzberger and **Steve Forbes** (USA); **James Murdoch**, **Jonathan Rothermere** and **Tom Glocer** (UK); **Arnaud Lagardère** (France); **Mathias Doepfner** and **Hubert Burda** (Germany); **Michael Ringer** (Switzerland); and **Carl-Johan Bonnier** (Sweden).

World Economic Forum Develops Progressive "Global Leaders for Tomorrow" Roles

Here is a brief list of a few names of the successful candidates you may recognize:

United States and Canada

- **Gavin Newsom** (selected in 2005),
- **Pete Buttigieg** (selected in 2019, US secretary of transportation since 2021),
- **Chelsea Clinton** (Clinton Foundation board member),
- **Huma Abedin** (Hillary Clinton aide, selected in 2012),
- **Nikki Haley** (US ambassador to the UN, 2017-2018),
- **Samantha Power** (US ambassador to the UN, 2013-2017, USAID Administrator since

World Economic Forum Develops Progressive "Global Leaders for Tomorrow" Roles

- **Ian Bremmer** (founder of Eurasia Group)
- **Jonathan Soros** (son of George Soros)
- **Kenneth Roth** (director of “Human Rights Watch” since 1993),
- **Paul Krugman** (economist, selected in 1995), NYT contributor
- **Lawrence Summers** (former World Bank Chief Economist, former US Treasury Secretary, former Harvard University President, selected in 1993),
- **Alicia Garza** (co-founder of Black Lives Matter, selected in 2020)
- **Stéphane Bancel** (Moderna CEO).
- **Chrystia Freeland** (former [WEF strategy director](#)), Canadian Deputy Prime Minister (selected in 2001, former managing director of Reuters).
- **Justin Trudeau**- Canadian Prime Minister, a WEF participant

World Economic Forum Develops Progressive "Global Leaders for Tomorrow" Roles

Media

- **Leana Wen** CNN medical analyst (selected in 2018)
- **Sanjay Gupta** CNN chief medical correspondent
- **Andrew Ross Sorkin** (New York Times financial columnist)
- **Thomas Friedman** (New York Times columnist, selected in 1995)
- **George Stephanopoulos** (ABC News, 1993) Technology and Social Media
- **Bill Gates** Microsoft founder (1993),
- **Steven Ballmer** former Microsoft CEO (2000-2014, selected in 1995)
- **Jeff Bezos** (1998), Amazon founder
- **Lachlan Murdoch** (CEO of Fox Corporation).

World Economic Forum Develops Progressive "Global Leaders for Tomorrow" Roles

- **Sergey Brin** and **Larry Page** (2002/2005) Google co-founders
- **Eric Schmidt** former Google CEO (2001-2017, selected in 1997)
Wikipedia co-founder
- **Jimmy Wales** (2007) Wikipedia co-founder
- **Peter Thiel** (2007) PayPal co-founder
- **Pierre Omidyar** (1999) eBay co-founder
- **Mark Zuckerberg** (2009) Facebook founder and CEO
- **Sheryl Sandberg** (2007) Facebook COO

Some other countries

- **Jacinda Ardern** New Zealand Prime Minister (selected in 2014)
- **Greg Hunt** New Zealand Health Minister(selected in 2003)

World Economic Forum Develops Progressive "Global Leaders for Tomorrow" Roles

- **Greg Hunt** Australian Health Minister (selected in 2003)
- **Tony Blair** and **Gordon Brown** former British Prime Ministers (both selected in 1993)
- **Dawood Azami** BBC World Service journalist
- **Lynn Forester de Rothschild** (co-owner of The Economist)
- **Nathaniel Rothschild** (son of Lord Rothschild)
- **Niall Ferguson** (selected in 2005) Chancellor
- **Angela Merkel** German Chancellor (selected in 1993, 12 years before becoming Chancellor)
- **Jose Manuel Barroso** 2004- 14 (selected in 1993) and **Jean-Claude Juncker** 2014-2019, (selected in 1995), Past EU Commission Presidents
- **Emanuel Macron** French President since 2017, (selected in 2016),
- **Nicolas Sarkozy** former French President 2007-2012 (selected in 1993),
- **Sebastian Kurz**, Austrian Chancellor

History of the Progressive Movement-Part 2: New PR Image Issues!

2009- Climategate Scandal erupted on November 19, 2009

A collection of email messages, data files and data processing programs were leaked from the University of East Anglia Climatic Research Unit (CRU) located in the UK...

- They revealed science fraud and data manipulation and data by scientists concerning the [Global Warming Theory](#).
- The leaked materials revealed by more than thousands of emails, documents, and computer code sets between various prominent scientists.
- The released information is evidence of [deceit](#) by climate scientists, which was kept a secret or hidden from the public until the data was leaked from the CRU.
- [https://www.conservapedia.com > index.php?title=Climategate](https://www.conservapedia.com/index.php?title=Climategate)

History of the Progressive Movement-Part 2: New PR Image Issues!

- The Climategate emails and climate data became the subject of intense debate, calling to question assumptions on anthropogenic (man-made) global warming.
- The legitimacy of climate science, with the charges leveled by the CRU and the (IPCC), **was severely shaken!**
- The Climategate scandal revealed that corruption of climate science is a worldwide problem and is not confined to just Britain's CRU climate research centre. Several Examples:
 - it was discovered that the “reported” warming trend in New Zealand over the past 156 years (from 1853 to 2008) was created by man-made adjustments of the temperature data.^[16]
 - The CRU scientists also deliberately falsified data, and then used the results of the falsification to obtain additional research funding.

History of the Progressive Movement-Part 2: New PR Image Issues!

- NASA's two primary climate centers, the National Climatic Data Center (NCDC) in Asheville, [N.C.](#), and the Goddard Institute for Space Studies at [Columbia University](#) in [New York City](#), "**systematically eliminated 75% of the world's stations with a clear bias toward removing higher-latitude, high-altitude and rural locations (which reported cooler temperatures).**"
- The number of actual weather stations used to calculate average global temperatures was reduced from about 6,000 in the 1970s to about 1,500 today.
- The number of reporting stations in Canada dropped from 600 to 35.
- The CRU scientists, from the **Climategate emails**, on several occasions discussed methods of subverting the scientific [peer review](#) process to ensure that skeptical papers had no access to publication.

History of the Progressive Movement-Part 2: New PR Image Issues!

- Despite the significance of the scandal and its impact on the theory suggesting humans cause climate change, **media outlets ignored and it has "mandated" to downplay the scandal.**
- Various science committees rallied to support past climate change studies and vilified the illegal leaking of the Climategate information...**but the damage was done!**

[https://www.conservapedia.com > index.php?title=Climategate](https://www.conservapedia.com/index.php?title=Climategate)

Also, IPCC has a conflict of interest in their constitution

- **IPCC has a mandate to only consider only human causes of Global Warming, NOT the natural causes of changing climate!**
- **This limits any debate and restricts funding regarding other important variables**

History of the Progressive Movement-Part 2: New PR Image Issues!

In summary, the progressives survived another strategy crisis for establishing population control.

- Their “Eugenics strategy” had a public image issue.
- Then the climate didn’t cooperate with their “Global Cooling strategy”
- The “Global Warming” (Now Climate Change) strategy is facing a PR credibility problem with maintaining fear/population control
- The Michael Mann’s “Hockey Stick Chart” and “Climategate” exposed science corruption!
- The progressives recognized the earth was nearing the next short cooling cycle which would create even more credibility issues

They recognized the need for a backup plan to reestablish greater fear/control.

This sets the stage their pandemic planning and the coming of “The Next Reset”!

History Progressive Movement - Summary of Part 2

- As eugenics lost public acceptance, a new fear strategy evolved with "Global Cooling"
- The Club of Rome, a semi-secret group (1968), lead the progressives' foreign policy influencing with countries and the UN
- The new "Global Cooling" strategy lost interest and was replaced with "Global Warming" in the late 1980s using the same tactics
- By 1990s, the WEF then took over the leadership Progressives' role and started selecting/training new leaders for governments and other organizations...annual meetings were held in Davos
- By the early 2000s, the new fear strategy had to be rebranded..."Global Warming" was replaced with "Climate Change" to maintain "fear/control"
- As more of the computer model predictions had failed, another "fear strategy" maybe needed..."pandemics" were to be investigated
- **History of the Progressive Movement-Part 3, Will Cover ~2010 to Today**

Bonus: Additional Slides With Progressive Trivia

Some Additional Comments

Reviewing a few critical points:

The UN's IPCC had a bias for allowing political influence:

- The IPCC had a conflict of interest in their constitution
- It has a mandate to consider only human causes of global warming, not the natural causes of changing climate!
- **This limits any debate and restricts research funding regarding other important variables...this is anti-science!**

"When politics meets science, politics usually wins!"

History Progressive Movement, Part 2- UN Bias Influences

Quotes from Christina Figueres who was the UN Climate Chief, Secretary General (2010-2016):

- "...humanity should make every effort to reduce global population to protect the environment and fight global warming."
- "...democracy is a poor political system for fighting global warming." She also stated that Communist China is the best model.
- Also she stated the a major goal is "**change economic development models that has been reigning for at least 150 years.**" (referring to capitalism/free markets to be replaced with wealth redistribution)

Who Was Maurice Strong?.... Nicknamed the "Michael Angelo of Networking"

Maurice Strong is known for being the Secretary General for the UN Conference on Environment and Development. He organized the Earth Summit in Rio de Janeiro July, 1992. He was a Globalist and socialist...but what was his background?

- **Born in Manitoba, Canada (1929). Drops out of high school at age 14 and takes a job as a dock hand on ships.**
- At age 16, takes a job as fur buyer for the Hudson's Bay Company in Canada's North. There he meets "Wild" Bill Richardson, whose family is involved with [McColl-Frontenac](#), one of Canada's largest petroleum companies.
- Strong's networking with Richardson and an introduction to a UN official (Noah Monod} leads to a low level junior security officer at the UN headquarters (1947).
- While in NY, Monod introduces Strong to David Rockefeller.
- Strong then returns after a couple years to Alberta to take a clerk/trainee job at a brokerage firm...thus starting his "networking" in the finance field
- He then gets a position with Jack Gallager, Dome Petroleum

Who Was Maurice Strong?.... Nicknamed the "Michael Angelo of Networking"

- He left in **1956** to set up his own firm MF Strong Management
 - Assists investors to find opportunities in Alberta oil fields.
 - **He develops ties with Canadian politicians making them wealthy and establishing his political influence/networks**
- Appointed president of Power Corporation of Canada (**1961-66**).
- Strong left Power Corp to head up Canada's External Aid program. He oversaw the creation of the Canadian International Development Agency (CIDA) and the International Development Research Centre (IDRC).
- Then he accepts various UN assignments including secretary general of UN Conference on Human Environment, then is appointed Executive of the of Environment Program
- Strong is involved with the **Club of Rome** and also becomes a member of the Foundation Board of the **World Economic Forum** with Klaus Schwab

Who Was Maurice Strong?... Nicknamed the "Michael Angelo of Networking"

- In **1976**, Pierre Trudeau appoints Strong the CEO of nationalized Petro Canada
- In **1978**, Strong is appointed president of Ontario Canada
- In **1986**, he is appointed commissioner of the World Commission on Environment and Development

Note: He continues his private dealings throughout this period. He networks connections in politics, investment banking, UN/IMF/World bank leaders, and contacts with developing country leaders. **His public image was as a "do-gooder", but was ruthless and self-serving in private!**

- **Strong, as the Secretary General for UN Conference on Environment and Development, organized the Earth Summit in Rio de Janeiro July, 1992**

Who Was Maurice Strong?.... Nicknamed the "Michael Angelo of Networking"

- In **1992**, Strong founded the Earth Council. He recruited Mikhail Gorbachev, Shimon Peres, Al Gore, and David Rockefeller (all members of the **Club of Rome**).
- His close friend James Wolfensohn, prior Senior Executive at Solomon Brothers and on the Board at the Rockefeller Foundation, was appointed President of the World bank
- Maurice Strong quote (9/01/97), "***Frankly, we may get to the point where the only way to save the world will be for industrial civilization to collapse!***"

Who Was Maurice Strong?... "Michael Angelo of Networking"- UN Scandal

UN SCANDALS

The **Oil-for-Food Program** was established by the United Nations in 1995 to allow Iraq to sell oil on the world market in exchange for food, medicine, and other humanitarian needs for ordinary Iraqi citizens without allowing Iraq to boost its military capabilities.

- Cash was funneled via U.N. agencies to the rogue regime of North Korea, which involves, among other things, Maurice Strong's creative use of a little-known, U.N.-chartered educational institution called the University for Peace
- **In 2005, during investigations into the U.N.'s [Oil-for-Food Programme](#), evidence was procured by federal investigators...**
- Strong, while serving as a top adviser to then-Secretary-General Kofi Annan, he took personal checks that were bankrolled by Saddam Hussein's U.N.-sanctioned regime.
- **Strong resigned from UN positions and moved (exiled?) to Beijing, China**

[Meet Maurice Strong: Globalist, Oiligarch, "Environmentalist" - The Corbett Report](#)

History Progressive Movement, Part 2- "Some Science Observations and Conclusions"

Several dozen computer models promoting rising temperatures, due to increased **CO₂** as a greenhouse gas, **have all failed in their predictions...WHY?**

Some science observations on the "global warming modeling" weakness:

- **Incomplete modeling-** Ideally, experiments can be run to test a model. The earth's global conditions can't be experimentally manipulated to test a model...so, **the predictions tend to be more theoretical.**
- **Oceans as a CO₂ source-** Oceans remain a solubility source of as they can absorb/release CO₂ from depths also a source methane...modeling is incomplete.
- **Solar radiation is the source of earth's heat-** No models have predicted future solar cycles accurately.
- **Clouds have a large impact on surface temperatures-** Can't model cloud cover changes accurately....water has 7x Greenhouse gas effect as CO₂

History Progressive Movement, Part 2- "Some Science Observations and Conclusions"

- **Ocean currents impact surface temperatures-** Shifting ocean currents are difficult to model
- **Massive amount of methane are in permafrost-** Methane has 23x the greenhouse effect as carbon dioxide...modeling difficulty
- **Vostok Ice Core studies discrepancy-** Ice core samples all indicate that the earth's temperature rises first, then is followed by rising CO₂ around 7-800 years later

WEF – Klaus Schwab Quote:

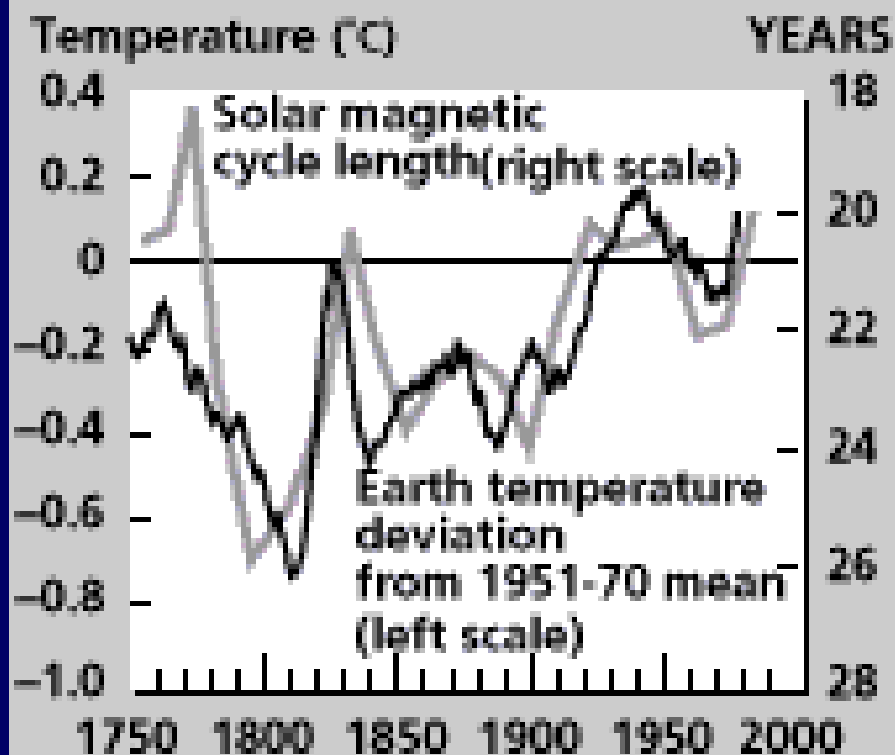

“The pandemic represents a rare but narrow window of opportunity to reflect, reimagine, and reset our world.”

Klaus Schwab

Founder and Executive Chairman, World Economic Forum

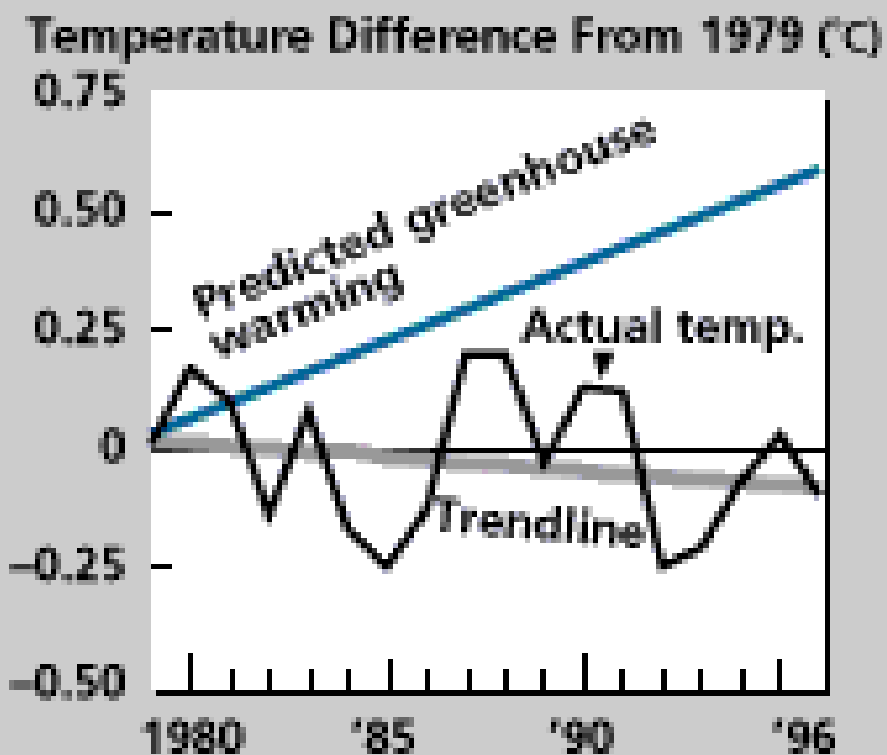

WHAT WARMS THE EARTH?

It's Solar Activity ...
