

# History of the “Progressive Movement”-Part 1

A Review of the background information that leads to what is referred to as today’s “Progressive Movement” (~150 yrs. old)

- **“Progressive” is an “umbrella term”** that includes many individual groups that share some or most of the same **globalist beliefs** or goals
- They focus on their main views of **“what is best”** for the future world based on **limited resources with an excessive world population**
- Their dominant individual shared common belief is the requirement for **“One controlling world government” (NWO)**
- **Their hubris believes that “*They are the ones that should be in control!*”**

**Part 1 will cover events to ~1960**

***“Liberty vs. Total Freedom...Liberty is freedom with morality”***

# Our Human Nature History Impacting the “Progressive Movement”-Part 1

## **Our Human Nature has built in biases that shape society:**

- Tribalism- association with those who have common beliefs/values: “racism” for outsiders
- Powerful drivers: "Fear" and "Greed" (envy is a catalyst)
  - Minor levels can be a positive
  - Excessive levels are usually a negative
- Narcissism, hubris evolves
- “Leader of the pack” syndrome, nepotism
- See the “Slippery Slope” chart: a history of societies and our human nature
- Why do new billionaires become “globalists”? See all the above

***"For in order to turn the individual into a function of the State, his dependence on anything beside the State must be taken from him."***

- Carl Jung

# Our Human Nature History Impacting the "Progressive Movement"-Part 1

What are the individual's interests for joining with the "Globalists"?

1. **Money**
2. **Power**
3. **Control**
4. **"Good intentions"**

The **political/financial elites** typically are driven mostly by **#1-3** for their own personal greed

The "**masses**" are recruited by "Good Intentions": Save the earth, create a more happy and equal society, an attitude of gratitude...

**Why do the Globalists Hate Capitalism?**

*Capitalism is bad because of its promotion of growth and it provides personal/class mobility!*

## Progressive/Globalist Objectives

These have been some of the common objectives of the various Progressive groups:

**Progressives' goals are promoted to centralize their global control:**

- **Global Depopulation: Population reduction (limit children):** abortion, same sex relationships, eliminate sexual definitions...**eugenics** is a key strategy!
- **Following the **Marxist principles****
- **People must turn to government FIRST, not the “traditional family”** (dismantle it!)
- **Eliminate any religion not under government control.** Targeting the Vatican (Catholic Church)...Eliminate the 1<sup>st</sup> Amendment in the US

# Progressive/Globalist Objectives

## (Continued)

- **Propaganda/Indoctrination strategies:** centralize education, reduce family influence, “woke-ism”, identity division politics, “cancel culture”
- **Redefine "growth"** to destroy/dismantle nationalism, economies, and individual governments for establishing the NWO (New World Order)
- **Use the UN to drive the “progressive changes “ through policies**

### Example:

**The UN Population Fund (UNFPA)** started operations in **1969** to assume a leading role within the **UN** system in promoting **population** programs, based on the human right of individuals and couples....as **defined to support the NWO goals**

## Recognizing Brain Basics of Our Human Nature and History

Throughout history, man has struggled with advancement and our human nature. Whether its emotions or rational thinking, ***“Our human nature hasn’t changed for thousands of years, nor will it change!”***

- Rise and fall of societies have followed the same patterns...
- This includes tribal units, empires, kingdoms, dictatorships, or “pure democracies”
- Tribal unit “conflicts” are inherent in our nature: tribe vs. tribe, kingdom vs. kingdom, country vs. country, rich vs. poor, two class societies....
- Even today in sports: “tribalism” emotions, it's team vs. team conflicts!
- Many of these conflicts are often referred to as “racism” today
- Basic human drivers are ***greed vs. fear***, and the brain responses are always the same

## Recognizing Brain Basics of Our Human Nature and History

Often, we may start with good intentions, but our **Human Nature** prevails

- **Anytime there is “a concentration of power, the temptation is for greater control”**
- **Our greed takes over.... and hubris results**
- ***“We think we are smarter than anyone else, therefor we know what’s best for them!”***
- **Definition of Greed: A selfish desire for more of something (such as money, power, fame, recognition, etc.) than is needed**

The “Progressive Movement” is just another classic example of this!

***“Power corrupts, absolute power corrupts absolutely”*** - Lord Acton, 1887

## “Ruler’s Law (Total Power) - Authoritarian”

- Dictatorship-Tyranny
  - Royalty
    - New World Order (NWO)
      - Communism
      - Fascism
        - “Industrial Policy” (Early Fascism)
          - Socialism

### TWO CLASS SOCIETIES

### US Constitution Prevents the Creeping Evolution

- Liberty (People’s Law) –Healthy middle class with individual mobility (up and down), the US Constitution is followed

### ‘Creeping’ Evolution to a Two Class Society

- No law -Anarchy

The Founding Fathers set up a republic with a Constitution to guard against creeping tyranny. It was designed to protect future generations from our human weaknesses.

## Historic Theme: Using “Good Intentions” vs. Our Human Nature

### Summary of today’s (Part 1) Presentation’s Key Points:

- The official journey starts in the mid 1870s with “**Darwinism**”
- The main goal is to deal with diminishing resources (food supply) and over population to “save the earth”
  - **Develop a New World Order (NWO)**
  - **Power/control is established by the “globalist elites”**
- **The 1<sup>st</sup> major strategy focus was on “eugenics”**. By the 1950s, this strategy started losing favor
- **Then the 2<sup>nd</sup> major strategy was developed in the late 1960s to focus on the “climate”** to instill fear and get submission by the general population
- **Now, “The Great Reset”** is the latest strategy focusing/using a **Pandemic**

## Recognizing Brain Basics of Our Human Nature and History

Today, **“The Great Reset”** is the latest strategy is focusing on a "pandemic" to expand and establish total global control with a new economic system

There are also many minor supportive strategies for the “umbrella” groups

**Event Progressive Periods are sequenced by core strategies:**

- **1st)** Pre-1900, 1900-1912, 1913-1929, 1930-1950 , 1951-1960,
- **2<sup>nd</sup>)** 1960-1992, 1993-2010s
- **3<sup>rd</sup> )** 2010s- **Today**

# “Progressive Movement” is Divided into Phases

## The sequences of the evolution to be reviewed:

- Key pre-1860 events (“seeds”) leading to the Progressive Movement
- **Darwinism formation Phase** (~1859-1890)
- **Phase 1 (1890 to mid-1950s)** of the Progressive Movement
  - Groups come together to consolidate goals
  - Key strategy is to build on **“Eugenics”**
- **Phase “Chaos” (mid-1950s- 1970)** Strategy Disruption and the **Regrouping**
  - **“Eugenics”** loses favor....the **1960s** was a decade of **“progressive”** chaos!
  - Various issues debated and themes/tactics are considered to the **“Rebranding”**
- **Phase 2 (1970-2010)** Rebranded Strategy
  - Various groups (such as WEF) consolidated under the **“Progressive Umbrella”**
  - Main strategy of **“Man Driven Global Climate”** is chosen
  - Various social issues added to goals as support strategies

**Phase 3 (2010-Today)** **“The Great Reset”** Pandemic Strategy

## Seeds for the “Progressive Views” Started With the “Enlightenment”

The concepts for the “progressive movement” **are not new**. Concern for the future of Earth and mankind has been inherent in societies.

**Population control isn't new:** Although philosophers have contemplated the meaning and value of “eugenics” (controlling the population) at least since recorded history:

- Every **Spartan** child was inspected by the council of elders to determine if each was fit to live
- **Plato** recommended a state-run program of mating intended to strengthen the guardian class in his *Republic* (~375 BC)
- **In ancient Rome**, a Roman father was obligated by law to immediately terminate the life a child if physically disabled

## Seeds for the “Progressive Views” Started With the “Enlightenment”

Then, a major shift and a consolidation of ideas occurred with the “Enlightenment” period:

- The “Enlightenment” period started in the early 1700s
- It challenged superstition and intellectual thinking by adding power of reason, skeptical analysis, and use of scientific methods
- This created major advances in the sciences, education in general, and modernizing societies

## Some More Key “Seeds” of the Progressive Movement

- In 1776, the Bavarian “**Illuminati**” was announced as an operating society of secret groups in Europe. The most important political tenet in this society was the abolition of private property, religious “abuses” and abuses of power in local states. Establish their central control.
- “***Essay on the Principle of Population***” (1798) by Thomas Robert Malthus, an English cleric and scholar influential in the fields of political economy and demography.
  - Malthus observed that an increase in a nation's food production improved the well-being of the populace.
  - The **improvement was temporary** because it led to population growth, which in turn restored the original per capita production level.
  - **Population growth therefore prevented real progress towards a utopian society**

## Formation of the “Progressive Movement” Starts with Darwin

**Charles Darwin (1809- 1882)** was an English naturalist whose [scientific theory](#) of [evolution](#) by [natural selection](#) became the foundation of modern evolutionary studies.

- First shocked was religious Victorian society by suggesting that animals and humans shared a common ancestry.
- A biology trip around the world **1831-1836 on the HMS Beagle** collected many samples of plants and animals
- He was the author of *“Journal of Research During HMS Beagle’s Voyage Around the World”*
- Darwin then wrote **“*On the Origin of Species*”** in **1859**, a book that has deeply influenced modern Western society and thought.

**He brought forward the idea that all species of life have evolved over time from common ancestors.**

## Darwin's Original Manuscript

Note the extended title which is often not reported. It is the alternate explanation listed on his 1859 book:

**“...OR THE  
PRESERVATION OF FAVOURED  
RACES IN The STRUGGLE FOR LIFE”**

## Formation of the “Progressive Movement” Starts with Darwin

- English biologist [Thomas Henry Huxley](#) coined the term “**Darwinism**” in April 1860.
- **Darwinism** is a [theory](#) of [biological evolution](#) developed by the English naturalist [Charles Darwin](#) and others:
  - All [species](#) of organisms arise and develop through the [natural selection](#) of small, inherited variations
  - This increases the individual's ability to compete, survive, and [reproduce](#).

When globalist demand, “*We must reduce the population in the world!*”....Respond to them, “*You First!*”

# Formation of the “Progressive Movement” Starts with Darwin

- **“Social Darwinism”** is the idea that a person’s place in society (whether upper class, middle class etc.) was solely due to your fitness or genes.
- **KEY POINT:** “Social Darwinism” is about applying the theory of evolution to social structures, and the justification for the “ruling class”
- **A persons place in society, which is or will be a result of their genes**
- As social Darwinist rationalizations of inequality gained popularity in the late 1800s and **then continued into the 20<sup>th</sup> century**
- British scholar Sir Francis Galton (a half-cousin of Darwin) launched a new “science” aimed at improving the human race by ridding society of its “undesirables.” **He called it eugenics.**
- **Eugenics** literally means “good creation” in Greek

## Eugenics Becomes a Key Strategy for Population Reduction/Control

Progressive (Globalist) groups adapt “Eugenics” as a major strategic tool:

*“Progressivism” is a story repeated often in history to the detriment of mankind: a messianic utopian vision that can only be accomplished by the coercive power of government.*

- **Eugenics** was a strategy soon embraced by many groups under the “progressive umbrella” for controlling population throughout the world.
- **Eugenics** is the idea that society can influence the course of human evolution by allowing preferable genes to be passed on to future generations, while discouraging non preferable ones.

## Eugenics Becomes a Key Strategy for Population Reduction/Control

- **Eugenics was the concept for improving groups of people:**
  - ✓ **It was also embraced by some groups as justifying their “racism” (such as KKK)**
  - ✓ Eugenics also justified our human nature bias toward “tribalism”
  - ✓ Others saw it as a way to improve/control individual traits
  - ✓ Society to encourage or make people with preferable genes reproduce
  - ✓ Society discourages or stops people with non-preferable genes from reproducing
  - ✓ **The ultimate result will be selected human groups for a smaller global population**
- This also fit their **concept of limited resources** (such as food) for their controlling a much smaller global population

## Eugenics Becomes a Key Strategy for Population Reduction/Control

- The progressives saw themselves as the leaders for controlling a coming **“one world government”** or a **New World Order (NWO)**!

**Eugenics was the key strategy for the early 20<sup>th</sup> century  
“Progressive Movement”**

*"When the search for truth is confused with political advocacy, the pursuit of knowledge is reduced to the quest for power."* - Alston Chase

## Review of Some Events Pre-1900

The US was making social progress with post-Civil War events. For example, many government departments including the military were becoming integrated. Such as:

- **A former slave, Henry O. Flipper** graduated from West Point in 1877, the first African American to graduate from the prestigious school. He was assigned to Ft. Verde as an officer in 1877.
- **The US military was being desegregated...**

**Then, Eugenics then started growing and became a powerful social force:**

- **Jim Crow laws were state and local laws** that enforced racial segregation in the Southern United States.
- All were enacted in the late 19th and early 20th centuries by white Democratic-dominated state legislatures after the Reconstruction period
- **Jim Crow laws were upheld in 1896 in the case of Plessy vs. Ferguson**, in which the U.S. Supreme Court laid out its "separate but equal" legal doctrine for facilities for African Americans

## List of Some Events Supporting Progressive (Globalist) Movement (1900-1960)

**1902- Stanford University president David Starr Jordan originated the notion of "race and blood" in his **1902 racial epistle "Blood of a Nation,"** in which the university scholar declared that human qualities and conditions such as talent and poverty were passed through the blood.**

**1904- Carnegie Institution established a eugenics laboratory complex** at Cold Spring Harbor on Long Island that stockpiled millions of index cards on ordinary Americans, as researchers carefully plotted the removal of families, bloodlines and whole peoples for providing information to legislatures

**1911 -Turkey established gun control.** From 1915-1917, 1.5 million Armenians, unable to defend themselves, were rounded up and exterminated.

**1913 -1921 Woodrow Wilson** elected **first progressive** president that wanted government involved in all areas of our lives. Wilson was a segregationist who had written a [history textbook praising the Confederacy and the Ku Klux Klan](#).

**1913- Wilson** allows the military and Federal departments to resegregate

**1913-** The Federal Reserve Bank is established. The current federal income tax law passed

## List of Some Events Supporting Progressive (Globalist) Movement (1900-1960)

**1920- League of Nations** was established to promote international cooperation and peace. It was proposed by Woodrow Wilson but the US never joined the League...it was powerless and it was dissolved in 1946,

**1924– Immigration quotas** were established which restricts Asians

**1927- *Buck v. Bell*** Supreme Court decision that upheld Virginia's statute permitting compulsory sterilization (eugenics) for those deemed to be "feeble-minded" and "unfit."

**1929 -The Soviet Union established gun control.** From 1929 to 1953, approximately 20 million dissidents, unable to defend themselves, were rounded up and exterminated.

## Then, the “Dark Days” of The Great Depression

**The “Dark Days” of The Great Depression were good years for bigotry and ignorance**

- **Globalist eugenics laws were applying eugenics to two Canadian provinces, and also widely spread across Europe. In the US, 30 U.S. states applied laws to sterilize the unfit.**
- **Eugenics’ successful growth was due in large measure to the fierce financial support of the Rockefeller Foundation, Carnegie Foundation, and other non-profit foundations, plus publications such as the science magazine *Nature*, which had been created in 1865 by T.H. Huxley’s X Club.**
- **The Rockefeller Foundation went onto fund German eugenics (1933), and most specifically the rising star of “human improvement” Joseph Mengele.**

# Then, the “Dark Days” of The Great Depression

**The global fact is that eugenics as a racist quasi-science had attained a near religious adherence across much of the western political and scientific establishment of the west, examples:**

- With leading adherents across **England**, such as [Sir Winston Churchill](#), British Fascists [Sir Oswald Mosley](#) and [King Edward VIII](#), were boasting the importance of the “purification of the race”.
- **France’s** Vichy regime had embraced eugenics under the leadership of rabidly anti-Semitic Field Marshall Petain
- **Censorship in Germany** was the key to controlling the populace and Propaganda Minister Joseph Goebbels eagerly took control of the news, literature, film making, theater, music and all forms of broadcasting...(sound familiar??)

# List of Some Events Supporting Progressive Movement (1900-1960)

**1932-** FDR is elected as the 2<sup>nd</sup> progressive president

**1932** – US started sending immigrants back home. More leave than arrive.

**1932- New York hosted the Third Eugenics Conference** co-sponsored by William Draper Jr (JP Morgan banker, head of General Motors and leading figure of Dillon Read and co) and the Harriman family. This conference brought together leading eugenicists from around the world who came to study America's successful application of eugenics laws.

**1933-** While housing discrimination has always existed, the **FDR administration** made [housing discrimination against blacks Federal government policy](#).

**1933- The Rockefeller Foundation** helped found/establish the German eugenics program. The CA eugenic programs were used as a model. They sent support to Germany to help Hitler formally establish their eugenics program

**1935-** China established gun control. From 1948 to 1952, 20 million political dissidents, unable to defend themselves, were rounded up and exterminated.

**1936-** The German Supreme Court rules that Jews are not people under their constitution. This allows the Holocaust to start.

## List of Some Events Supporting Progressive Movement (1900-1960)

**1938- Germany** established gun control and from 1939 to 1945, 6 to 7 million Jews, gypsies, homosexuals, the mentally ill, and plus millions of Christians who were unable to defend themselves, were rounded up and exterminated.

**1939- Margaret Sanger** (founder of Planned Parenthood) organized her "Negro project," a program designed to eliminate members of what she believed to be an "inferior race." "***We don't want the word to go out that we want to exterminate the Negro population...***" - Margaret Sanger, letter to Dr. Clarence J. Gamble, December 10, 1939, page 2

## List of Some Events Supporting Progressive Movement (1900-1960)

**1942- FDR's** Executive Order forced the internment of Japanese Americans. Approximately two-thirds of those interned were U.S. citizens.

**1944- Karematsu v. United States** -The Supreme Court ruled (6-3) FDR's executive order was Constitutional allowing persons of Japanese ancestry to be sent to internment camps.

**1944-** Bretton Woods Agreement between 44 nations led by US's Harry Dexter White (1st Director of the IMF later charged as a USSR spy) and UK's Lord John Maynard Keyes ( a strong eugenicist)

## List of Some Events Supporting Progressive Movement (1900-1960)

**1945- United Nations** established after WWII with aim of preventing future wars. UN replaced the ineffective League of Nations. Over the next decades, their emphasis shifted to social and economic programs.

**1948- President [Harry S. Truman](#)** signed [Executive Order 9981](#) on July 26, 1948, calling for the **desegregation** of the U.S. Armed Forces. Under pressure with the coming 1948 elections, he needed the black vote. [Why Harry Truman Ended Segregation in the US Military in 1948 – HISTORY](#)

**1947-The CIA** begins its study of LSD as a potential weapon for use by American intelligence. Human subjects (both civilian and military) are used with and without their knowledge.

**1949- U.S. Army** begins 20 years of simulated germ warfare attacks against American cities, conducting at least 239 open air tests. [see Chemtrail's](#)

***History showed that eugenics was often used by man to justify atrocities against man.***

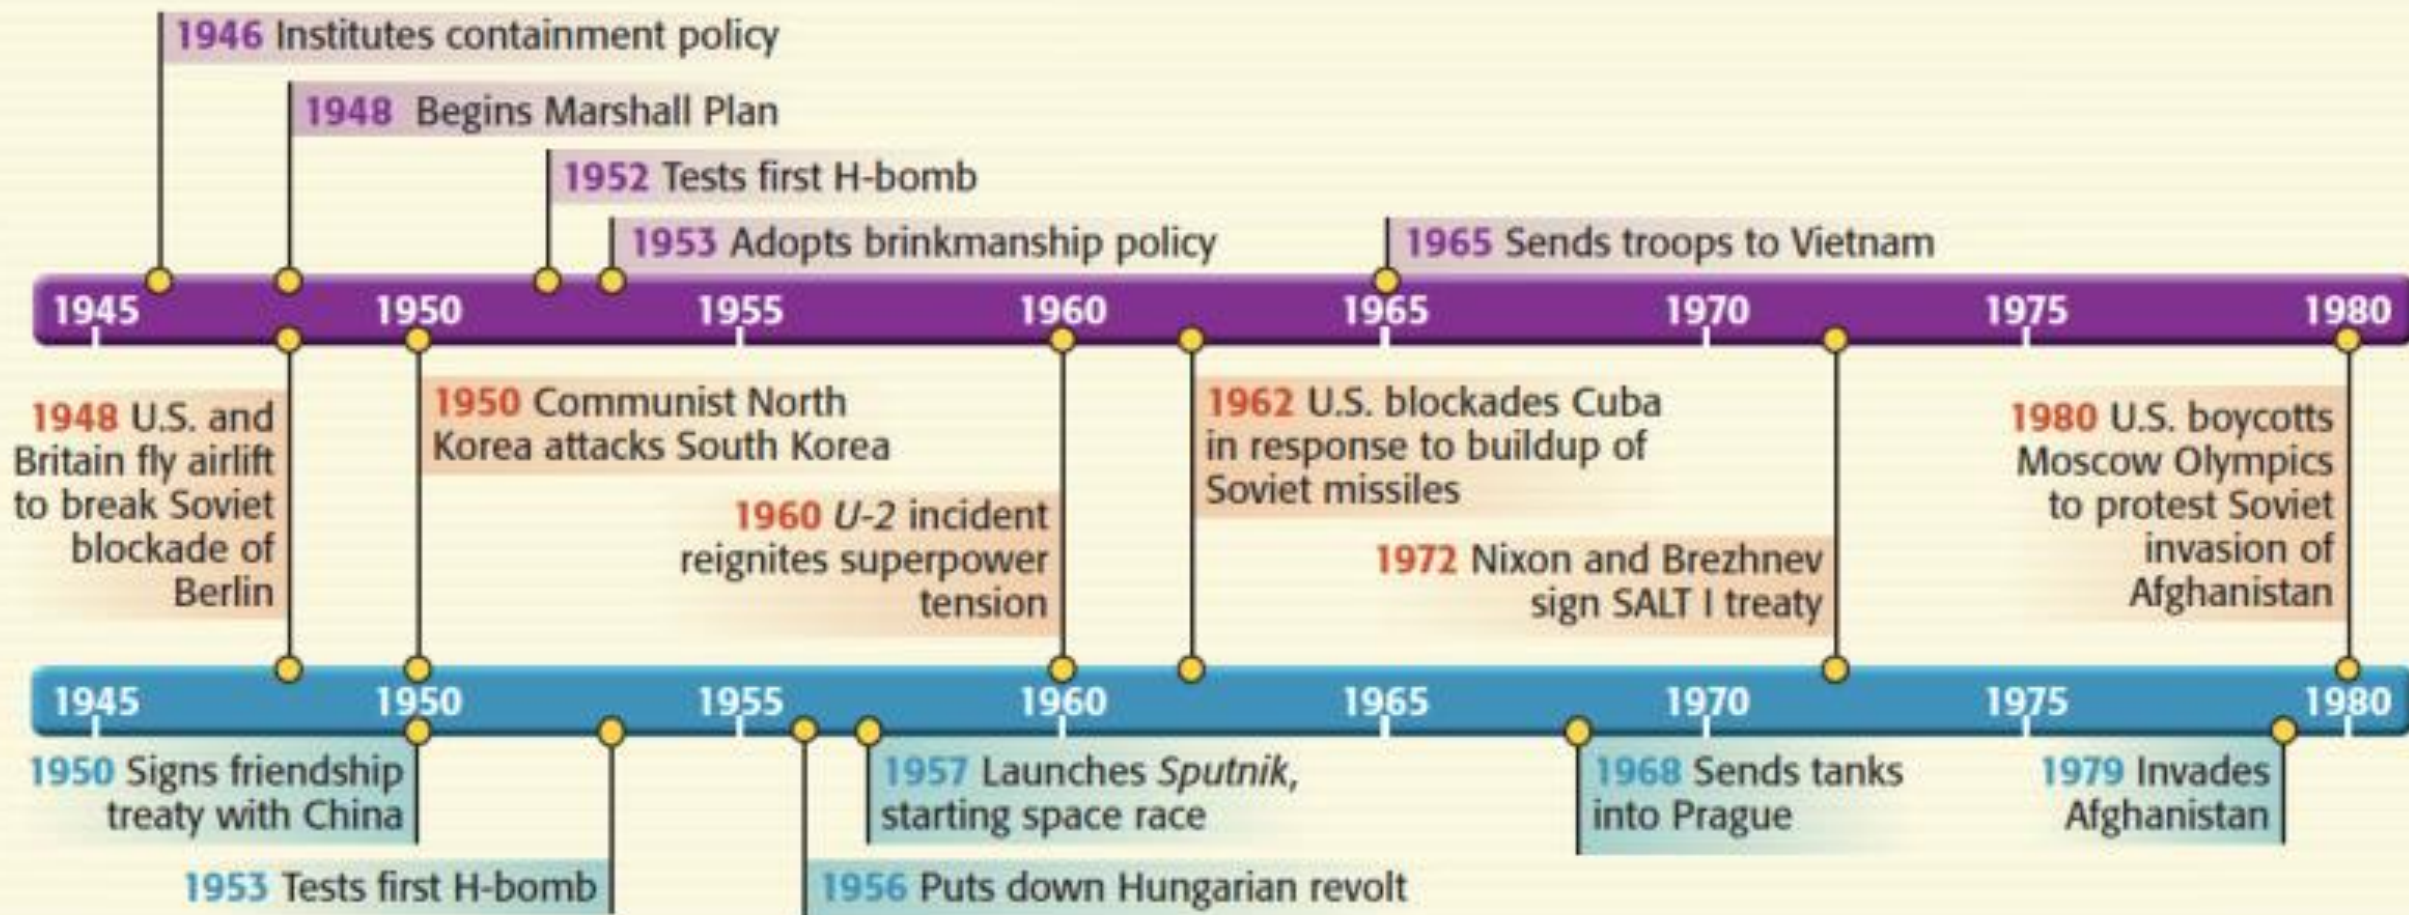

## List of Some Events Supporting Progressive Movement (1900-1960)

**1950s- As decolonization** spread, 80 former colonies gained independence and joined the UN (a major setback for the Globalists). Many of these countries had histories of genocide and eugenic abuse experiences.

**1950s- The Cold War** is underway pitting Marxist states against Western democratic freedom oriented countries

# Cold War, 1946–1980

United States

Soviet Union

# The Progressive "Disarray" Evolves in the 1950s

**Summary: The end of WWII exposed many abuses by governments.**

- This led to an awakening to “centralized government control” abuses.
- Many governments would soon use “good intentions” to foster socialism/communism to maintain control
  - USSR, China, Venezuela, Cuba, etc.
  - Globalists liked the Marxist philosophy, but not the separate countries
- The rise of the civil rights groups continues the undermining of the Progressives/Globalists’ main “eugenics strategy”.
- This chaos was occurring worldwide causing their loss of influence and control.
- In the US, ACLU gained influence.

# Summary: History of the Progressive/Globalist Movement-Part 1

**By the 1960s, the Progressives' eugenics strategy was falling apart and they needed to rebrand their movement.** Their goals/intentions remained the same, but their image suffered.

- **Economies were growing and the global population increasing!**
- Eugenics has been used to justify **“Man’s atrocities against man”!**
- Eugenics efforts were played down and not discussed openly
- **“Cultural change” efforts were increased**
- Infiltration of public institutions and the UN increased. New recruiting and new organizations were needed to influence/control policy issues
- Propaganda plans expanded
- **New strategies were now needed to establish global control!**

**This set the stage for Phase 2- “Climate Strategy”**
