

#TheResistance
and the
#Hashtag Society

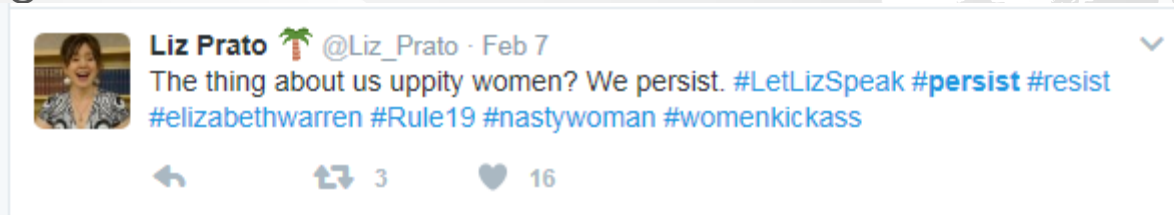

THE #HASHTAG SOCIETY

- The hashtag sign (#) is used to indicate a collection of related electronic postings by the public.
- Hashtags are commonly used in Twitter accounts to show connections to a broader collection of information.

THE #HASHTAG SOCIETY AND TWITTER

- In some cases, hashtags are used to replace actual content, the sign of a liberal non-thinker.

- Twitter accounts allow an individual to electronically publish information as long as it is 140 characters or less in length.
- What are the implications of this type of communication?
 - It encourages immediate and permanent expression of feelings, unsupported by facts, to an unseen audience with no opportunity for discourse.
 - *"Everybody is in favor of free speech. Hardly a day passes without its being extolled, but some people's idea of it is that they are free to say what they like, but if anyone says anything back, that is an outrage." ~ Winston Churchill (1874-1965)*

THE VALUE / DOWNSIDE OF TWITTER?

- It is immediate / it encourages self-expression without deliberation.
- Its size limit requires conciseness / it encourages strong statements to get the message across.
- It can be used to quickly communicate to a broad audience / it can artificially inflate the perceived self-worth of the “publisher”

WHAT IS #THE RESISTANCE?

- It is the efforts of the Democrats / Liberals / Socialists / Community organizers to undermine and block the actions of President Trump and his administration.
- It is the efforts of the above groups to shut down the voice of American moderates and conservatives.
- It promotes civil disobedience, disruptions, rallies and marches, and violence to make their voices heard.
- It supports “social justice” causes, unrestricted immigration, special privileges for minority groups, reverse racism, and other causes.
- It is the intentional organized release of confidential and national security information to de-legitimize the administration and any politicians that the movement opposes.

HOW DOES IT WORK?

- Hatred, anger, and violence
- Innuendo, false accusations, and false histories
- Branding and name calling (alt-right, fascist, racist, xenophobe, etc.)
- Fake news
- Suppression of conservative press and news sources (Facebook, YouTube, etc.)
- Social media for organizing; preying on the under informed, yet passionate younger generations
- Well-funded, organized, professional demonstrators and rioters

WHERE DID IT COME FROM?

- The elements have been working in the background for a long time to subvert American civil society, as evidenced by;
 - The Rainbow Mafia and the attack on religious freedom
 - The creation of dependency on the government
 - The promotion of the secular society and the attack on God
 - Socialism in its many forms
 - Multiculturalism vs. Americanism
 - Political correctness
 - Radical Islam
 - The educational system and the teaching of revisionist history
 - The teachings of Saul Alinsky and community organizing
 - Unionizing and the expansion of “group think”
 - Judicial activism and the destruction of the rule of law
- It has found a new focal point because of the end of the Democratic dynasty and the election of President Trump

WHO IS SUPPORTING IT?

- The Judicial system (9th Circuit Court of Appeals)
- Universities and educators (Berkley riots)
- Public institutions (Southern Poverty Law Center...)
- Community organizing groups (Obama's army...)
- Liberal funding groups (Soros...)
- The mainstream media (CNN, MSNBC, CBS...)
- Governmental bureaucracy (Rogue POTUS staff, the official white house resistance operation: www.potusstaff.com)
- Congressional liberals
- Churches
- Many others

WHO IS PARTICIPATING IN IT?

- Snowflakes
- Squirrel-chasers
- Paid agents
- Social engineers
- Socialists / progressives / liberals
- The angry / disenfranchised / futureless youth produced by the American non-educational system

WHAT IS THE OBJECTIVE?

- To create sufficient chaos to disrupt the current administration and prevent the effective implementation of the changes promised by President Trump and his conservative constituency.
- Anarchy
- The increase of governmental control, particularly that of a progressive administration.

WHAT CAN / SHOULD WE DO?

- UNDERSTAND IT

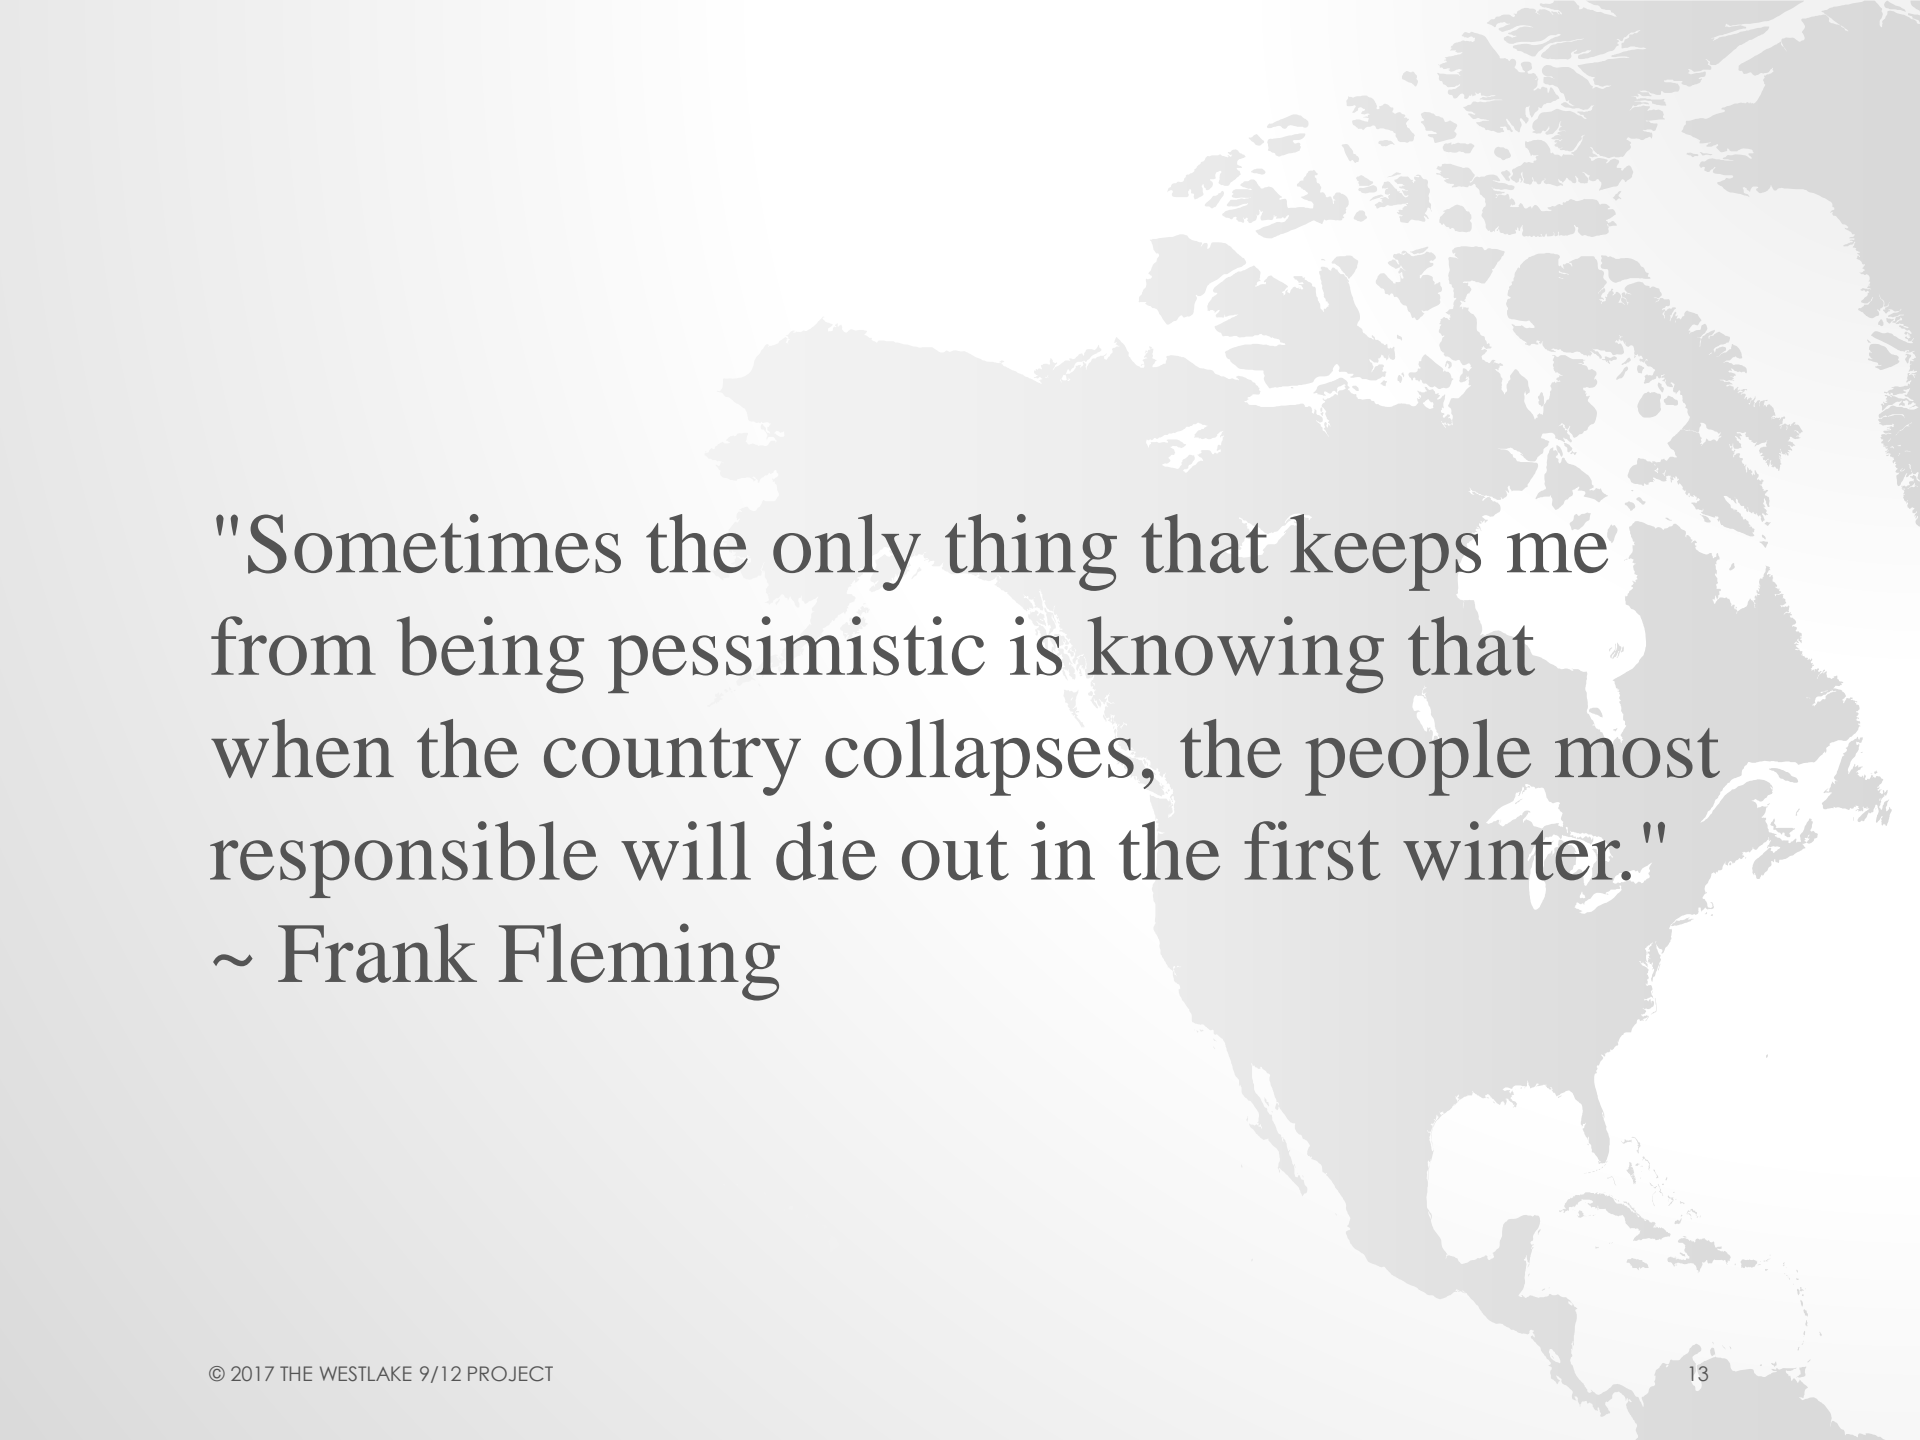

- Leftists don't merely disagree with you. They don't merely feel you are misguided. They don't think you are merely wrong. They hate you. They want you enslaved and obedient, if not dead. Once you get that, everything that is happening now will make sense. And you will understand what you need to be ready to do.

- WAIT IT OUT

- This movement is like the flu...It just shows up all of a sudden and lots of bad stuff just starts coming out of everywhere.
- The good news is that it will go away like the flu because of the healing power of the civil society. The best treatment is to hunker down, continue to believe and act according to your beliefs, and wait until it runs out of energy and other people's money.
- The American People have spoken and established a Presidency and an Administration that they believe will work for them believe in the quiet power of that movement.

WHAT CAN / SHOULD WE DO?

- RESPOND IF YOU WANT TO
 - Engage in Twitter wars
 - Contact your representatives
 - Get involved in local government (e.g. sanctuary cities, etc.)
 - Talk about it. Share your views. Ask a liberal to explain themselves.
 - Support conservatives and conservative organizations, and do not support liberal people or organizations. Don't shop at Nordstrom. Don't buy Starbucks coffee. Don't buy an Audi.
 - Kurt Schlichter has written on www.TownHall.com;
 - *The Left is so foolish, so stuck in its bubble that it has no understanding that it can only push so far before the people with all the guns and all the training push back.*
 - *Understand your enemy. Understand that the Left will exploit your principles and morals to make you disarm yourself – figuratively and literally. Don't play their game; don't fall for their manufactured outrages. Never concede their lies, never take their side against the people defending your liberty. Most of all, accept the truth that if we let them win we will spend the rest of our lives on our backs with a giant Birkenstock pressed into our collective face.*

"Sometimes the only thing that keeps me from being pessimistic is knowing that when the country collapses, the people most responsible will die out in the first winter."
~ Frank Fleming
